

1. Make a table with the submitted sample:

2. №	3. Age (years)	4. Type of allergy	5. Sex	6. Type of medications	7. The name of medications
1	1,5	Strong	M		
2	4	Middle	F		
3	9	Weak	F		
4	15	Middle	M		
5	7	Weak	F		
6	1	Middle	M		
7	3	Strong	M		
8	17	Middle	F		
9	16	Weak	F		

2. In the column "Type of medications" to define the type of medications depending on the type of allergy:

- If an allergy is strong, pills would be appointed;
- If an allergy is middle, the drops would be appointed;
- If an allergy is weak, syrup would be appointed.

3. In the column "The name of medications" to define the name of medications in accordance with the next table.

Age (years)	drops	syrup	pills
1- to 2	Cradac baby	Sirodac baby	Tablodac baby
2- to 6	Cradac junior	Sirodac junior	Tablodac junior
6- to 12	Cradac kids	Sirodac kids	Tablodac kids
12 and more	Cradac	Sirodac	Tablodac

4. Make flowcharts for used algorithms
